We love children, but our spas offer clients the chance to relax in a tranquil setting. As a courtesy to our other guests, please make arrangements for your children. When you arrive to the Spa, please turn off your cell phone and speak quietly. We reserve the right to require a credit card to hold your reservation. welcome

Our Spas provide expert waxing, skin, body, and nail care services in an elegant, yet cozy atmosphere.

Here, human touch is our inspiration and making things better is our Passion. Maintaining superior standards and customer satisfaction is a top priority for us, that is why all our estheticians are trained by Pia, or under her close supervision, even after years of prior study and experience. Continuing professional education beyond state regulations also is a requirement.

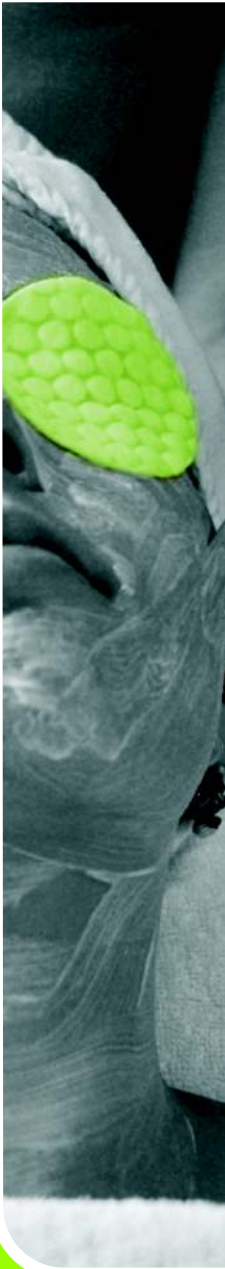

Our commitment to consistency in procedures and high quality in every detail marks the strong difference between us and other spas. Some hire staff by relying solely on a résumé and lease space to any person. We love what we do, and it shows in the results. We are committed to your satisfaction in every aspect of your experience with us. Our main goal is to provide you with the best services available so that you will enjoy your time with us and look forward to your next visit.

This menu contains our most popular services. We encourage you to visit our website (PiaSpa.com) to check for new services, packages, seasonal treatments, and answers to frequently asked questions.

Your opinions and suggestions are very important to us. They are the best way for us to keep improving to better serve you. To send your feedback, please go to PiaSpa.com/feedback.

massage

Massage is one of the oldest healing therapies. When performed by a skilled therapist, massage can benefit your body and mind in a number of ways:

Relieve stress, decrease depression and anxiety, alleviate lower-back pain, alleviate discomfort during pregnancy, strengthen the immune system, and help to prepare for, and recover from, workouts.

Massage also pumps oxygen into tissues and vital organs, improves circulation, reduces spasms and cramping, relaxes and softens injured, tired, and overused muscles, releases endorphins, reduces high blood pressure, relieves migraine pain, and enhances sleep quality.

Replenish your energy levels and bring harmony to your mind and soul in the soothing environment we have created for you.

Relaxation / Swedish Massage

Soft to medium manipulations relieve stress, providing an overall improved sense of well-being and improved circulation.
